Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 02 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Friday feeling chilly and remaining dry. Sunny spells.

Today:
Chilly with some bright or sunny spells. Through the day cloud will increase at times. Probably a sunny end to the day as cloud tends to disperse. Coldest conditions near coasts where winds will be strongest. Maximum temperature 10 deg C (50 deg F).

Tonight:
A cold night with frost developing as some long clear spells affect most areas of the region. Cloud may increase again, especially after midnight. Winds mostly decreasing light. Minimum temperature 0 deg C (32 deg F).

Saturday:
Saturday will be another colder than average day and remaining dry with variable cloud amounts. Some bright or sunny spells. Winds mostly light, but rather stronger near the coast. Maximum temperature 9 deg C (48 deg F).

Outlook for Sunday to Tuesday:
Sunday slightly milder with sunny spells. Cloudier later with strengthening winds. Overnight rain and chance of snow. Winds strong. Monday and Tuesday much colder with snow showers and coastal gales.
